

M O U N T L E B A N O N A C A D E M Y

To All Parents and Students:

Summer will soon be here, and once again the Academy's summer program provides a great opportunity to explore new concepts, maintain the gains with skills taught previously, experience enrichment activities, or receive academic support. We hope you will consider one of our group classes or tutorials and give your son/daughter an opportunity to get excited about learning this summer.

We are excited about **Fun Fridays** which will take place on selected Fridays throughout the summer. These programs will be offered from 9:00 AM to 12:00 Noon and include Coding, American Girl Doll Adventures, Math Gymnastics, Jump Start Middle School, and a STEM class. We are certain your children will enjoy these learning experiences.

Middle school and high school students will also find our Study Skills class provides a smooth transition to new curriculum expectations while emphasizing time management, note-taking, testing skills and lots more. We suggest anyone interested in this class sign up for Session III in order that the ideas and skills are fresh when students begin the academic year.

Our math and reading programs (K-12) also provide an excellent opportunity for reinforcement and enrichment. The Academy's math and reading teachers have seen gaps in achievement with elementary and middle school students which have resulted in downward trends in high school Keystone Exams, SAT scores, and standardized achievement levels. Algebra skills are underdeveloped, and currently there is a growing demand for remedial math among freshman in 4 year colleges across the nation. Now is the time to take advantage of the opportunities to expose your son/daughter to a summer learning experience and watch their achievement in future math and reading courses improve. By enrolling now, you can help to ensure their future success as a student.

GOOD NEWS! NEW AUGUST ADMINISTRATION OF SAT AND SAT SUBJECT TESTS! In addition to our regular classes and tutorial programs, we will be offering, once weekly, an SAT class which includes all sections of the test. This course consists of 16 class periods. We find students often benefit from a summer class as they do not have to deal with busy schedules and the demands of the academic year. In addition students will receive their test results far in advance of early application deadlines. If you are dissatisfied with your August scores, you can always retake the test in October or November. Take advantage of this opportunity to reach your peak score by participating in our popular well paced summer or fall preparation programs for the SAT. *(If interested in a class during the academic year, call the Academy for an SAT flyer or download a registration form from the internet, www.mtleboacademy.com **The summer SAT Program begins on July 12th and runs through August 23rd.***

Any absences can be made up in a private tutorial; however, tuition rates will be adjusted accordingly. Private tutorials are also available if students wish to choose their own days and times while refining their skills.)

The Academy's summer sessions are scheduled as follows:

Week of June 12th- Tutorials Only

Session I June 19th – July 30th (2 weeks)

CLOSED July 3rd – 7th Holiday Recess

Session II July 10th – July 28th (3 weeks) Group Classes and Tutorials

Session III July 31st – August 18th (3 weeks) Group Classes and Tutorials

August 21st – 25th Make-up classes and tutorials

CLOSED August 28th – September 1st

Fall Classes begin September 6th

Please remember all tutorial classes, unlike group classes, do not follow the above session dates and can be scheduled at any time throughout the summer. New tutorials meet twice weekly for a minimum of 6 class periods. The SAT class, however, meets once weekly on Wednesday morning beginning July 12th, with the exception of the final week when the class meets Monday and Wednesday prior to the August 26th test date.

Parents who wish to register early can take advantage of the “Early Bird Discount” by forwarding payment for the summer sessions no later than June 1st. All tuition payments should be postmarked by 6/1/17 in order to receive the discount. Checks received after the first of June will be subject to the General Registration Fee.

If you are considering a tutorial for the summer session, you should complete the tutorial registration form and forward it with your tuition payment in order to secure placement with the teacher of your choice. Once again we welcome the opportunity to work with your son or daughter. In the meantime our best to you and your families as you enjoy the long awaited days of summer, and to all of our students a special wish for a happy summer vacation.
