

# Mount Lebanon Academy

*Personalized Educational Experiences*

Date: May 7, 2024  
To: All Parents and Students  
From: Carolyn J. Pasanek, Director  
Subject: Summer Tutorial Sessions

Summer will soon be here, and now is the time to consider providing academic maintenance and acceleration to avoid any slippage during the summer. The Academy's summer program provides a great opportunity to explore new concepts, maintain the gains with skills taught previously, experience enrichment activities, or receive academic support. We hope you will consider one of our private tutorials and allow your son/daughter to get excited about learning this summer.

Studies show that when children are not engaged in thinking and learning activities over the summer, they show little or no academic growth. Typically, studies have documented that students will lose 1-3 months of learning due to a lack of mental stimulation over the summer. The Academy's programs provide lots of opportunities for student learning and will offset the summer "brain drain". Our math and reading programs (K-12) provide an excellent opportunity for reinforcement and enrichment. Please refer to the website for all tutorial options.

Private tutorials can be scheduled at any time throughout the summer and do not necessarily need to follow the session calendar. If you have vacation plans or camps scheduled, please document the times on the registration form. We can roll over any interruptions and credit classes upon his/her return.

The Academy's summer programs are scheduled as follows;

\* Parents can take advantage of the discount by registering by May 15<sup>th</sup>

SESSION I                      June 17<sup>th</sup> – July 4<sup>th</sup> (Make-ups scheduled for holiday)

SESSION II                     July 8<sup>th</sup> - July 26<sup>th</sup>

SESSION III                    July 29<sup>th</sup> - August 16<sup>th</sup>

\*Students attend twice weekly for a three-week session (Mon/Wed) or (Tues/Thurs).

Although the Academy officially closed its primary location at 400 Cochran Road, many of our teachers are still available throughout the summer for private tutoring. Parents can contact them directly and make scheduling arrangements and payments with the individual tutor of their choice. (See website for more information.) The former director is available and will be tutoring a limited number of students. [www.mtleboacademy.com](http://www.mtleboacademy.com)

If you are considering a tutorial for the summer session, you should complete a tutorial registration form and forward it with your tuition payment in order to secure placement with the teacher of your choice. Once again we welcome the opportunity to work with your son or daughter. In the meantime our best to you and your families as you enjoy the long awaited days of summer, and to all our students a special wish for a happy, safe summer vacation
